### A NETWORK to support education

- ✓ **Current awareness**  
Administrative, juridical, technical and scientific in agriculture and sustainable development (biodiversity...)
- ✓ **Production of resources**  
For pedagogical teams
- ✓ **Advise, expertise and studies**  
About agriculture and environment sciences, in partnership with researchers and professionals
- ✓ **Management and development of territories**

« To support agricultural education in the acquisition of the skills needed for sustainable development and to promote innovation in school farms »

### ... To a SUSTAINABLE agriculture for the next generations

- ➔ **To identify and develop innovations**  
And pedagogical projects in school farms
- ➔ **To integrate evolutions in the occupations/jobs, research and society expectations** in training courses and in the school farms
- ➔ **To help teams and to offer pedagogical resources**
